New South Wales Higher School Certificate Mathematics Extension 2 practice papers amongst other things

New South Wales Higher School Certificate Mathematics

Each group of four will need a copy of these cards (Word, pdf), which should be shared between all members of the group. Ask the children to read through the cards and find the one that explains the task. Explain that the groups will feed back at the end of the session, sharing the ways they worked, what helped them and what got in the way.

Vision The Maths department at King Solomon Academy aims to provide a demanding and interesting curriculum that enables pupils to discover patterns in data, marvel at naturally occurring Mathematical structures and appreciate how processes link to their wider applications. Our pupils will be Maths literate, develop fluency in procedures and keen problem solvers.

Summary: In this differentiated lesson, students learn how to skip-count by 2s, 5s and 10s, and recognise number patterns. They also use a calculator to help them count, which is where vast differentiation can occur. Australian Curriculum Links: Year 3 Mathematics: Describe, continue, and create number patterns resulting from performing addition or subtraction (ACMNA060).

Trigonometry (from Greek *trigōnon*, "triangle" and *metron*, "measure") is a branch of mathematics that studies relationships involving lengths and angles of triangles. The field emerged in the Hellenistic world during the 3rd century BC from applications of geometry to astronomical studies. The 3rd-century astronomers first noted that the lengths of the sides of a right-angle triangle and the ...
