### **Contents**

An airline is a company that provides air transport services for traveling passengers and freight. Airlines utilize aircraft to supply these services and may form partnerships or alliances with other airlines for codeshare agreements. Generally, airline companies are recognized with an air operating certificate or license issued by a governmental aviation body.

Aviation safety means the state of an aviation system or organization in which risks associated with aviation activities, related to, or in direct support of the operation of aircraft, are reduced and controlled to an acceptable level. It encompasses the theory, practice, investigation, and categorization of flight failures, and the prevention of such failures through regulation, education ...

The Background. The IATA Cargo Agency program has operated for many decades without significant alterations, despite compelling changes in the business relationship between cargo agents and airlines. Today, the traditional IATA Cargo Agent has transitioned from being a selling-agent of the airline to being a purchasing-customer.

A Passenger Name Record (PNR) is the basic form of computerized travel record: [Excerpt from a simple PNR obtained from the CBP division of the DHS.Click image for larger version. More examples and discussion.]. Most travellers have never seen a PNR, and few people know what information is in the PNR's about them, or how it gets there.
